What is Digital Skin Needling by Finishing Touches Group?

Our unique range of needles will allow you to carry out a variety of micro-needling treatments to stimulate collagen, to create fresher, healthier skin. Advanced needling can treat medical conditions such as trauma scars as well as fine lines and wrinkles.

From plastic GENTLE needles, for a lunch-time skin boost, to metal needles for a more INTENSE and targeted rejuvenation treatment.

Skin Rejuvenation by Digital Skin Needling

Finishing Touches are pleased offer you a selection of treatments that use the process of advanced digital skin needling to produce natural, long-lasting results in skin rejuvenation using a variety of tilted needle plates specifically designed for a German engineered medical device.

This advanced micro-needling treatment is designed to stimulate your skin, encouraging it to rejuvenate and repair itself naturally, producing smoother, brighter, younger and healthier looking skin. Micro needling DSN treatment is clinically proven to be effective on: acne scarring, photo-damaged and ageing skin, facial, décolleté lines and wrinkles and stretch marks.

Course 1

page 9

Gentle skin needling

- Wrinkles and fine lines
- Improving the appearance of skin texture
- Skin brightening
- Skin tightening

Course 2

page 11

Targeted skin needling

Machines

Finishing Touches offer an unrivalled range of machines with needles for both skin rejuvenation and micropigmentation, as well as pigment removal.

Nano machine £1,950+VAT

Ideal for medical professionals

The Nano is an ideal starter machine for skin rejuvenation (gentle skin needling).

The Nano uses a full range of safety cartridge needles so you can progress your career in the future through SPMU, removers, scalp and medical tattooing. Small, compact and easily transported.

Revive MN machine £1,950+VAT

Ideal for cosmetic & medical professionals

The perfect machine to offer your client or patient the full range of digital skin needling solutions. From gentle plastic needles for rejuvenation to targeted precision needles for fine lines, wrinkles and small body scars. a 0.5mm metal needle is available for medical professionals.

Other machines are available.

A needle is less than £15 per procedure

1 day Meso ME Gentle Skin Needling £250_{+VAT}

Course 1: cosmetic and medical professionals

GROUP LEARNING WORKSHOP WITH DEMONSTRATIONS

Why not add a whole new procedure to your treatment portfolio. There is no need to buy a new machine, the needles will fit your Finishing Touches machine.

Meso ME is a new skin needling programme which will produce incredible results. The visible skin damage such as wrinkles, fine lines, dehydration and sagging actually happens below the surface of the skin – this is also where the repair takes place.

Meso ME substances penetrate very effectively right to the intersection between epidermis and dermis and place the highly effective substances directly at the problem areas with amazing results.

Meso ME is a gentle skin needling concept suitable for most skin types and for clients who can take minimal trauma and down time – redness dissipates within 1-2 hours.

Using hyaluronic skin infusions and an 18 point plastic needle cartridge, you will be able to improve the appearance of fine lines and wrinkles and improve skin texture and tone.

You can use Meso ME with a range of skin needling hand pieces. Clients undertake a course of treatments over 6-8 sessions and then 6 weekly visits thereafter.

Skin and wrinkle improvement is often seen after only 1 treatment and these results encourage clients to continue with the entire course.

This is one of the most gentle skin needling treatments on the market and will quickly become popular with your clients – a real diary filler.

Overview

This one day workshop will teach you the necessary techniques to be confident in the delivery of Meso ME skin rejuvenation. You will be working in a group no bigger than 10 delegates and everybody will gain hands on experience. You will receive a training manual and Certificate of Attendance.

The workshops are held every 6/8 weeks.

Key learning points

- Hands on practical sessions
- Contra indications
- Aftercare
- Treatment planning
- Clinical and hygienic set up and clear down
- Ongoing advice and support
- Product information and ingredients

Before

After

1 day Meso Enhance Targeted Skin Needling £995_{+VAT}

Course 2: cosmetic and medical professionals

Overview

This digital skin needling course will cover all areas of targeted needling for fine lines and wrinkles, acne scarring and skin rejuvenation. You will be able to offer your clients an effective alternative to fillers or derma roller that works with fantastic long lasting results.

Successful treatment for:

- Fine lines and wrinkles
- Softening and improving skin texture
- Skin brightening
- Suitable for face, décolletage, hands
- Small body scars
- Facial scars
- Acne scars including ice pick scars

Your course will teach you a combination treatment using 2 skin needling techniques. A precise dry needling technique targeting fine lines and wrinkles and then an overall facial treatment of Meso ME using a specialised plastic needle plate and hyaluronic skin infusions. The addition of a 0.5mm metal needle is available to medical professionals only.

Meso ME is a gentle skin needling concept suitable for most skin types. Using hyaluronic skin infusions and an 18 point plastic needle cartridge, you will be able to improve the appearance of fine lines and wrinkles and improve skin texture and tone.

Skin and wrinkle improvement is often seen after only 1 treatment and these results encourage clients to continue with the entire course.

Who is suitable for this course?

This course is open to anyone and our trainer will come to you for the day. It is suitable for new-starters as well as semi permanent make up professionals.

You will be trained working on your own clients – model requirements can be discussed at the point of booking a date to suit your diary.

If you are new to micropigmentation, you will be required to complete an induction module – cost £600_{+VAT}. Please ask for further details.

Running order

This is a one day module. It will be a blend of theory and practical application.

Key learning points

- Targeted skin needling
- Focus on fine lines around the eyes and forehead
- Using specific plastic needles, peels and serums
- Contra indications
- Aftercare
- Treatment planning
- Clinical and hygienic set up and clear down

General Information

How do I book a course?

A non refundable deposit of £500 is required to secure your place. The full payment is due 14 days prior to the course start date. If you have to cancel your course, we require 14 days notice. Deposits are non refundable. Your training will not be secure until we receive either a purchase order OR a deposit.

Bespoke learning

We charge £1,000 a day per person for bespoke learning at our head office, and £1,500 for 2 trainees in your hospital. Tell us exactly what you want to learn and we will work with you to customise a course to include all of your learning needs, which also fits in with your budget.

How will the course be assessed?

Observation of practical skills will be performed during the course along with verbal questioning to clarify.

Will I receive a qualification?

Yes. You will receive a certificate of attendance within 7 days of attending the course.

Will I need to bring any materials?

No. All materials and products will be provided, including a course manual and procedure forms for your future use.

Training days

All training dates are listed with each course and prices are per trainee. Bespoke training is available – please call for further details.

In-house training

We are aware of the limited budgets in both NHS and private hospitals and so we offer the following help. If one specialist trains then we allow a second person to train for HALF PRICE.

We allow up to 6 allied members of staff to sit in on the theory session, as well as viewing some practical hands-on work being undertaken.

This will help everyone in the new Medical Tattooing Department to gain knowledge and understanding, so everyone in the unit can discuss procedures and outcomes with patients.

Where to find us

Haywards Heath, where our Head Office and supply centre is based.

15 minutes from Gatwick Airport

1 hour from London Victoria

All centres are listed alphabetically

- 1 Bedford, Bedfordshire
- 2 Belfast, County Antrim
- 3 Bridgend, Wales
(coming soon)
- 4 Bristol
- 5 Cardiff, Glamorgan
- 6 Catterick Garrison, North Yorkshire

- 8 Haywards Heath, West Sussex
Head Office**
- 9 Hornchurch, Essex
- 10 Hull, Yorkshire & Humber
- 11 London (central)
- 12 London (north)
- 13 Maldon, Essex
- 14 Manchester, Cheshire
- 15 Redcar, North Yorkshire
- 16 The Wirral, Cheshire

Once you have booked to train with us we will send you travel and hotel information.

3 day Medical Masterclass £2,950_{+VAT}

Our Medical Masterclass provides a balanced programme of theory and practical learning using a range of excellent patient volunteers. You will learn how to offer your patients visual aesthetic improvements for:

- Areola pigmentation, LD and tram scar flattening and pigmentation
- Skin graft and vitiligo pigmentation
- Scar and burns camouflage colouration
- Scar and burns relaxation and improvement by dry needling and a range of infusion needling techniques

Tami says:

“after my accident I endured a great deal of painful surgery to minimise my scarring which healed red, raised and bumpy. After having medical tattooing treatments my scars are now barely visible. I feel this procedure should be made available to all patients post surgery.”

Stephen says:

“the treatment has been a definite success. I can see and feel noticeable improvements in the appearance of my skin. I suffered extensive third-degree burns as a child and had extensive scarring – until the Finishing Touches team helped me heal my demons.”
